

TABLE OF SPECIALTIES

ANESTHESIOLOGY	Page 2
COLON AND RECTAL SURGERY (PROCTOLOGY PROCEDURES)	Page 3
DERMATOLOGY	Page 3
GENERAL SURGERY	Page 4
MEDICAL/PEDIATRIC SUBSPECIALTY SERVICES REQUIRING ANESTHESIA	Page 5
OBSTETRICS AND GYNECOLOGY	Page 5
OPHTHALMOLOGY	Page 6
ORTHOPEDICS	Page 7
OTOLARYNGOLOGY-HEAD & NECK and FACIAL PLASTIC SURGERY	Page 7
PLASTIC AND RECONSTRUCTIVE SURGERY	Page 8
PSYCHIATRY	Page 9
RADIOLOGICAL PROCEDURES REQUIRING ANESTHESIA SERVICES	Page 9
THORACIC SURGERY	Page 9
VASCULAR SURGERY	Page 10
UROLOGY	Page 10
PODIATRIC SURGERY	Page 10

ANESTHESIOLOGY

General and Regional Anesthesia:

Procedures Requiring Privileges

Conscious Sedation

Regional Anesthesia

- Field Blocks

- Intravenous regional blocks (Bier-Block)

- Retrobulbar blocks

- Peripheral nerve blocks

- Brachial plexus blocks

- Spinal

- Epidural

General Anesthesia

Airway Management

- BVM (Bag Valve Mask Ventilation)

- ET Tube placement

- Laryngeal Mask Airway

- Nasotracheal tube placement

Anesthesiology CONSCIOUS SEDATION

Procedures Requiring Privileges

Diazepam

Versed

Barbiturates

Meperidine

Propofol Disopropylphenol

Ketamine

COLON AND RECTAL SURGERY (PROCTOLOGY PROCEDURES)

Procedures Requiring Privileges

Fulguration for neoplastic disease - see also laser
External hemorrhoidectomy - see also laser
Internal hemorrhoidectomy - see also laser
Incision and drainage of perirectal abscess
Surgical treatment of anorectal fistula
Surgical treatment of anorectal fissure
Colonoscopy

Use of Laser: Requires additional training in specific laser use.

Fulguration for neoplastic disease: NdYAG, CO2
External hemorrhoidectomy: NdYAG, CO2
Internal hemorrhoidectomy: NdYAG, CO2

DERMATOLOGY

Procedures Requiring Privileges

Electrosurgery - see also laser (for cautery)
Cryosurgery
1) superficial freezing of the skin - see also laser
2) application of thermal couplet in the skin to achieve freezing into the dermis
Excisional surgery with primary and secondary closures - see also laser (for cautery)
Laser surgery - see also laser
Intermediate and complex repair of surgical defects, flaps, and grafts - **Requires additional training**
Liposuction - **Requires additional surgical training.**
Hair transplantation - **Requires additional training.**
Soft tissue augmentation including use of collagen, gelatin, and fat - **Requires additional training.**
Mohs micrographic surgery - **Requires additional training.**

Use of laser: Requires additional training in specific laser use.

Electrosurgery: (for cautery) CO2
Cryosurgery, superficial freezing of the skin: Candela
Excisional surgery with primary and secondary closure: CO2 (for cautery)

GENERAL SURGERY

Procedures Requiring Privileges

ABDOMINAL SURGERY

Laparoscopy - diagnostic

ANORECTAL PROCEDURES

Fulguration for neoplastic disease - see also laser

External hemorrhoidectomy - see also laser

Internal hemorrhoidectomy - see also laser

Incision and drainage of perirectal abscess

Surgical treatment of anorectal fistula

Surgical treatment of anorectal fissure

Colonoscopy - Diagnostic - with or without polypectomy **Requires additional training.**

Esophagogastroduodenoscopy - **Requires additional training.**

SKIN & APPENDAGES

Management of burns with anesthesia services

Excision of muscle foreign body with anesthesia services

VASCULAR

Hemodialysis graft declot

OTHER

Thyroid biopsy only

Lymph node biopsy

Placement of central venous catheter

Lumbar puncture with anesthesia services

Breast biopsy only

Use of Laser: Requires additional training in specific laser use.

Fulguration for neoplastic disease: NdYAG, CO2

External hemorrhoidectomy: NdYAG, CO2

Internal hemorrhoidectomy: NdYAG, CO2

**MEDICAL/PEDIATRIC SUBSPECIALTY SERVICES
REQUIRING ANESTHESIA**

Procedures Requiring Privileges

GASTROENTEROLOGY

Gastroscopy - **Requires additional training**
Colonoscopy - **Requires additional training**

PULMONARY

Bronchoscopy (**excluding with laser**) with biopsy - **Requires additional training**
Transbronchial Biopsy (no lasers used) - **Requires additional training**

OTHER

Lumbar Puncture with anesthesia services

OBSTETRICS AND GYNECOLOGY

Procedures Requiring Privileges

Curettage of uterus for retained products of conception
Evacuation of vulvar hematoma due to obstetrical trauma
Management of fetal death
Vacuum extraction for termination of pregnancy
Cervical cerclage
Dilatation and evacuation for termination of pregnancy
Termination of pregnancy less than 14 weeks LMP

Diagnostic procedures used in evaluation of women with gynecologic or lower urinary tract conditions:

Dilatation and curettage -- non-pregnant -sharp and suction
Hysteroscopy - see also laser
Laparoscopy - see also laser

Surgical procedures for correction of defects or treatment of conditions of the vagina, vulva and perineum:

Bartholin cystectomy
Excision of urethral caruncle - see also laser
Hymenectomy
Hymenotomy
I&D Bartholin's abscess
Perineorrhaphy
Excision of vaginal, vulvar and perineal lesions - see also laser
Anterior colporrhaphy

AlternativeCredentialing.doc

Printed: August 5, 2003 (12:01PM)

Posterior colporrhaphy

Operative endoscopy (therapeutic):

Laparoscopic procedures (specify) - see also laser

Hysteroscopic ablation - see also laser

Hysteroscopic polypectomy

In Vitro Fertilization:

Oocyte Retrieval with anesthesia services - **Requires additional training**

Embryo Transfer with anesthesia services - **Requires additional training**

Use of Laser: Requires additional training in specific laser use.

Hysteroscopy: NdYAG

Laparoscopy: CO2, KTP, ARGON and/or NdYAG

Excision of urethral caruncle: CO2

Excision of vaginal, vulvar and perineal lesions: CO2

Laparoscopic procedures: CO2, ARGON, NdYAG

Hysteroscopic ablation: NdYAG

OPHTHALMOLOGY

Procedures Requiring Privileges

Radial Keratotomy

Astigmatic Keratotomy

Automated Lamellar Keratoplasty - SEE ALSO LASER.

Blepharoplasty - SEE ALSO LASER.

Retrobulbar block

Repair of lacerations

Removal/excision of lid tumors

Lacrimal sac surgery - **requires additional training** -SEE ALSO LASER

Cataract surgery - SEE ALSO LASER.

Intraocular lens implantation

Glaucoma surgery - **requires additional training** - SEE ALSO LASER.

Corneal lacerations

Corneal foreign bodies

Pterygium excision

Retinal surgery -**requires additional training** - SEE ALSO LASER.

Keratoplasty

Corneal or refractive surgery - please specify technique - SEE ALSO LASER.

Anterior chamber paracentesis

Photorefractive Keratectomy (PRK) without laser.

Phototherapeutic Keratectomy (PTK) without laser.

AlternativeCredentialing.doc

Printed: August 5, 2003 (12:01PM)

Use of Laser: Requires additional training in specific laser use.

Automated lamellar keratoplasty: Excimer
Lacrimal sac surgery: CO2, NdYAG, Argon
Cataract surgery: NdYAG
Glaucoma surgery: Argon, NdYAG, Diode
Retinal surgery: Argon, Diode
Photorefractive Keratectomy (PRK) Excimer
Phototherapeutic Keratectomy (PTK) Light
LASIK Excimer
Blepharoplasty: CO2 and Erbium

ORTHOPEDICS

Procedures Requiring Privileges

Closed fracture reduction with anesthesia services
Arthroscopic surgery of the knee
Arthroscopic surgery of the shoulder
Arthroscopic surgery of the wrist - **requires additional post graduate training**
Ganglion removal
Carpal tunnel decompression
Surgery of the hand - **requires additional post graduate training**
bone graft pertaining to the hand
nerve graft
tendon reconstruction (free graft, staged)
tendon release
tendon repair
tendon fixation
tendon transfers or arthroplasty of large and small joints, including implants
Surgery of the foot - **requires additional post graduate training**
ankle arthroscopy - **requires additional training**
Adult ankle and foot reconstruction - **requires additional training**

OTOLARYNGOLOGY-HEAD & NECK and FACIAL PLASTIC SURGERY

Procedures Requiring Privileges

Surgery of outer ear - see also laser
Tube placement into middle ear (myringotomy or tympanocentesis)
Other (ear) Must be specified.
Electrocautery of anterior epistaxis
Tonsillectomy/Adenoidectomy
Surgery of external nose - see also laser

Other (nose) *Please specify and provide supporting documentation on a separate page:*

_____ Endoscopic Procedures of Nasopharynx/larynx - see also laser
Facial Plastic Surgery Procedures - see also laser. Must be specified.
Liposuction of head/neck -**Requires additional training.**

Use of Laser: Requires additional training in specific laser use.

Surgery of the outer ear: Ruby
Surgery of the external nose: Ruby or CO2
Endoscopic procedures of nasopharynx/larynx: CO2
Facial plastic surgery procedures: Ruby (for pigmentation problems) and Candela

PLASTIC AND RECONSTRUCTIVE SURGERY

Procedures Requiring Privileges

TREATMENT OF SKIN NEOPLASMS, DISEASES AND TRAUMA

Scar revisions - see also laser

SURGERY OF THE BREAST

Breast augmentation
Breast reduction
Mastopexy

TREATMENT OF FACIAL DISEASES AND INJURIES INCLUDING MAXILLOFACIAL STRUCTURES

Nose deformity/ septal surgery
Ear deformity
Jaw deformity/ chin augmentation
Eyelid deformity

SURGERY OF THE HAND AND EXTREMITIES - **Requires additional training.**

Hand wounds
Tendon injuries (flexor, extensor)
Reductions of **closed** fractures of the hand and/or wrist with anesthesia services
Nerve injuries

COMPLEX WOUND HEALING AND BURN TREATMENT

Acute superficial or partial thickness burns covering less than 20% of body surface area in adults (other than hands, feet, head, neck or perineum) with anesthesia services

COSMETIC SURGERY

Facial contouring
Therapeutic injections for contour or scar modifications
Cosmetic tattooing of eyelids
Blepharoplasty

AlternativeCredentialing.doc

Printed: August 5, 2003 (12:01PM)

Liposuction - **Requires additional training**
Rhinoplasty
Chin augmentation
Skin lesion, subcutaneous skin lesion

Use of Laser: Requires additional training in specific laser use.

Scar revisions: Tunable dye or Ruby

PSYCHIATRY

Procedures Requiring Privileges

sodium amytal interview
electroconvulsive therapy

RADIOLOGICAL PROCEDURES REQUIRING ANESTHESIA SERVICES

Procedures Requiring Privileges

INVASIVE AND INTERVENTIONAL DIAGNOSTIC RADIOLOGY

Cerebral Angiography
Aortic (Thoracic & Abdominal Angiography)
Peripheral Angiography
Pulmonary Angiography
Lymphangiography
Venography

THORACIC SURGERY

Procedures Requiring Privileges

Bronchoscopy with prefatory endotracheal intubation - see also laser
Excision, biopsy and exploration of scalene node
Excision, biopsy and exploration of cervical node

Use of Laser: Requires additional training in specific laser use.

Bronchoscopy with prefatory endotracheal intubation: NdYAG

VASCULAR SURGERY

Procedures Requiring Privileges

Placement of central venous catheter
Insertion and revision of dialysis catheters, venous access devices and infusion pumps
Insertion and revision of peritoneal dialysis catheters
Injection of intravenous sclerosing solutions

UROLOGY

Procedures Requiring Privileges

Cystoscopy and retrograde pyelography -with biopsy and fulguration - see also laser
Surgery of the testes and appendages - vesicles, vas and cord
Lithotripsy - see also laser
Cystotomy
Prostatic biopsy
Fulguration for neoplastic disease - see also laser

Use of Laser: Requires additional training in specific laser use. (Generally not indicated for in-office practice.)

Cystoscopy and retrograde pyelography – with biopsy and fulguration: NdYAG and Holmium
Lithotripsy: Holmium and Candela
Fulguration for Neoplastic disease: NdYAG and Holmium (for bladder).

PODIATRIC SURGERY

Procedures Requiring Privileges

I.P. sesamoidectomy of hallux with anesthesia services
Bunionectomy with anesthesia services
Metatarsal osteotomy/Head 2-5
Metatarsal head resection
MPJ/IPJ capsulotomy - see also laser
Digital amputations (partial)
Plantar fasciotomy/fasciectomy - see also laser
Ray resection
Repair lacerated tendons
Incision & drainage, deep fascial plane infection
Syndactyle/desyndactyle
Skin grafts, dorsal

AlternativeCredentialing.doc

Printed: August 5, 2003 (12:01PM)

Excision of accessory bones
Osteotomies of tarsals, open/closed & wedge
Arthroscopic surgery (Foot & Ankle) - see also laser
Bone Stimulation Implant

Use of Laser: Requires additional training in specific laser use.

warts
neoplasm
Biopsy
nail procedures
